PROFESSIONAL EXPERIENCE

iTrobes Technology, Marthandam – Associate Software Developer
April 2023- PRESENT (Full Time)

- Currently working on an e-commerce website using **Next.js**, where customers can book chefs for their events based on the chef's availability, and chefs can update their menus. This project aims to provide a user-friendly and efficient platform.
- Developed and maintained web applications for managing employee information, streamlining **stock inventory**, and optimizing procurement processes.
- Utilized **React.js** to create dynamic and responsive user interfaces, enhancing user experience and productivity.
- Implemented **Redux** for centralized state management, ensuring data consistency and scalability across the application, resulting in a **43% improvement** in application performance and stability.
- Collaborated closely with back-end developers to integrate front-end components with **REST API's**, enabling seamless data flow and interaction.

Gway Technology, Chennai – Software Developer (Frontend)
November 2022 – April 2023

- Developed and maintained purchase web applications, contributing to the enhancement of procurement processes and workflow efficiency.
- Designed and implemented dashboard interfaces using Bootstrap, ensuring a responsive and visually appealing user experience for clients and stakeholders.

EDUCATION

- **Madras Christian College**, Chennai
  Master of Science, 2020- August 2022 with **72%**
- **Women's Christian College**, Nagercoil
  Bachelor of Science, 2017- April 2020 with **8.72%**
- **Bethlehem Metric School**, Karungal
  Higher Secondary, 2015- April 2017 with **81.4%**
